

A closer look

At Vaccine Ingredients of the 3 most common shots and some of the adverse reactions

Newborn babies are being vaccinated just hours after they are born with the Hep-B vaccine

[Expecting Mothers be sure to get your Model Birth Exemption Form before going to the Hospital.](http://www.vaclib.org/exemption.htm)
<http://www.vaclib.org/exemption.htm>

Ingredients Hep-B

Hepatitis B virus gene / yeast protein, Aluminum, Formaldehyde, Thimerosal (mercury derivative)

Adverse Reactions of Hep B:

Anaphylaxis hypersensitivity, Insomnia, Lymphadenopathy, Seizures/infantile spasms, Gillian- Barre Syndrome / Bell's Palsy, Transverse myelitis, Multiple sclerosis, Arthritis / Arthralgia, Thrombocytopenia, S-J S, Erythema Multiform, Urticaria, Systemic Lupus erthematosus (SLE), Elevation of liver enzymes, Optic neuritis, Otitis Media (ear infection), Renal failure, Encephalitis, Eczema
NOTE: SIDS and or Deaths reported to VEARS

Ingredients DTaP

Diphtheria, Tetanus Toxoids, & A cellular pertussis endotoxin, beef heart infusion/fetal bovine serum, aluminum, formaldehyde, Thimerosal (mercury derivative), phenol/phenoxyethanol, polysorbate 80 (Tween 80), dry natural latex rubber

Adverse Reactions of DTaP:

Anaphylactic Shock/Anaphylactoid, Encephalitis/Encephalopathy, SIDS and or deaths Seizures/infantile spasms, Guillain-Barre Syndrome/ Bells Palsy, Arthritis/Arthralgia, Diabetes Mellitus

Still Have Doubts About The Vaccine Dangers?

Investigate Before You Vaccinate

Gardasil HPV

This vaccine has 11 reported deaths and they are trying to make it Mandatory in your state. Who owns your child's body?

<http://www.vaclib.org/news/2006/gardasil.htm>

Get your vaccine exemption form here:

<http://www.vaclib.org/exemption.htm>

- * Parents have the right to claim an exemption from vaccine requirements
- * Exemptions can be made for either medical, religious or philosophical reasons
- * Exemptions for medical reasons require the signature of a licensed doctor, but religious and philosophical requires only signature of a parent

Why do you think there's such an interest in getting people vaccinated?

The Truth. Just follow the Money. The manufacturer makes money, especially when WHO (World Health Org.) makes deals with countries that have millions of people. They get the endorsement of government and health affiliations.

They produce serum that costs them little to produce. Then they seduce the public into "needing" it, and sell millions of doses. But it doesn't stop there. After millions have been vaccinated with the precursors to many diseases, after a while, they will need to buy prescription drugs for the rest of their lives.

Empower your self to have better health. Yes you can have Optimal Health NOW.

Vaccine Toxic Overload Children Vaccinated To Extreme

In 1983 the required Injections from birth to 6 years old was 10 injections compared to 36 injections in 2008. A child is now getting 26 injections loaded with harmful chemicals like Aluminum, Formaldehyde and Mercury proven to cause neurological disorders.

In 1983 - 10 injections contained 30 vaccines.
In 2008 - 36 injections contain 121 vaccines.

Multiply the many preservatives, live viruses, microbes plus adjuvants and what you now have is an Explosive Toxic Cocktail of ingredients that are being shot directly in to a newborn child's blood by passing all of the safety immunity systems and what has begun is the rapid degeneration of immunity setting the stage for many diseases to manifest.

Bottom line: Every one who has received any shots needs to DETOX ASAP! Why, you ask? Because the TOXIC load of chemicals are still in your body, your cells are replicating, and as days go by, your immunity will decrease. This is the reason why many of the common diseases like Autism, ADD/ADHD, Diabetes, Lupus, Heart problems, Asthma, Alzheimer, Parkinson's manifest early or later in live.

** Vaccines made from Aborted Fetal Cell

Voices Of Safety International (VOIS) reports that 17 years ago, in 1990, the Autism rate was 1 in 10,000, and now in the year 2007 the Autism rate is 1 in 67. My question is why?

<http://www.vaclib.org/news/april.htm>

It does not take a rocket scientist to see that there is a definite correlation between autism increase and the addition of more vaccines to the schedule of vaccination for children.

Many vaccine vials that contain

Thimerosal (Mercury) are still sitting on the shelves of Doctors offices. The Flu Shot now given to 6 month old babies has Thimerosal and Formaldehyde - two of the worst Neurotoxins on earth.

Taking a closer look

The 3rd most common vaccines that children are to have is the Influenza vaccine, better known as the Flu Shot.

It has been proven that ONE Flu Shot a year 5 years in a row will increase chances of Alzheimer's by X10 FOLD. WOW!

It is criminal that now Babies at 6 months old are getting this TOXIC vaccine.

You heard right - at 6 months old Babies get this dangerous toxic vaccine.

Ingredients:

Egg or chicken protein, Influenza viruses, Neomycin, Polymyxin, Gentamycin antibiotics, Thimerosal, Betapropiolactone, Nonoxynol, Octoxinol9 vaginal spermicide, Formaldehyde, Polysorbate 80. Triton X-100

Adverse Reactions of Flu Shot:

Hypersensitivity, Guillain-Barré Syndrome, multiple infectious illnesses, Campylobacter jejuni, Encephalopathy's, Body aches, Fever, Seizure, Erythema., Malaise, Myalgia, Headache, Neurological disorders, Hives, Angioedema, Allergic asthma, Systemic anaphylaxis

All vaccines cause reactions. The leader with the most fatalities is the DTP shot. The 2003 Vaccine Death Report listed 3,275 injuries and 688 Deaths.
